easy

INGREDIENTS FOR 15 PORTIONS

FOR THE CRAYFISH JELLY

100 g Seasonal mixed vegetables, brunoise

200 g Crayfish tails

5 g Gelatin sheets à 3 g

100 ml Vegetable stock

Saffron powder

FOR THE HORSE RADISH COATING

500 g QimiQ Classic, room temperature

60 g Horseradish, grated

Salt and pepper

METHOD

1. For the jelly, blanch the brunoise vegetables and pat dry with a paper towel. Line a triangular shaped terrine mold (approx. 17 fl oz volume) with cling film and fill with the vegetables and cray fish tails.
2. Soak the gelatin in cold water. Squeeze off the excess fluid and dissolve in the warm vegetable stock with saffron. Pour over the vegetables and chill for at least 6 hours (preferably over night).
3. For the coating, whisk QimiQ Classic smooth. Add the remaining ingredients and mix well. Line an oblong shaped terrine mold (approx. 1 litre volume) with cling film and fill with half of the QimiQ mixture.
4. Tip the jelly out of its mold and remove the cling film. Carefully place along the centre of the QimiQ mixture, cover with the remaining QimiQ mixture and chill for at least 4 hours (preferably over night).
