

CHOCOLATE CAKE

QimiQ BENEFITS

- Quick and simple preparation
- Longer presentation times possible under proper refrigeration

15

easy

INGREDIENTS FOR 2 CAKE(S), Ø 9 INCHES

415 g QimiQ Classic, room temperature

225 g Vegetable oil

520 g Sugar

155 g Pasteurized whole egg

365 g AP Flour

10 g Salt

20 g Baking soda

75 g Cocoa powder

210 ml Water

4 g Vanilla extract

METHOD

1. Preheat the oven to 325° F (conventional oven). Grease two 9 inch cake pans and line the bottoms with parchment paper.
2. Mix the cake ingredients in a mixer at medium speed with a paddle attachment until smooth, ensuring that the complete mixture is incorporated (especially from bottom and sides of bowl).
3. Pour the mixture into the pre-prepared cake pans and bake for approx. 55 minutes in the hot oven.
4. Allow to cool completely before trimming to the desired size.
5. Optional: ice with chocolate icing and decorate.
